B. If appropriate, explain why objectives were not met.*

- Time spent driving to find the pre-assigned locations were very time consuming and costly, especially for the number of traps that could actually be placed and stayed in the trees in those locations.
- After the lure change, 32% of the traps were missing.
- By the end of the trapping season, 36.9% of the traps were missing.

C. Where appropriate, explain any cost overruns or unobligated funds in excess of \$1,000.
